

# Assessment of Corrective Measures Certification

## Basin Electric Power Cooperative Laramie River Station, CCR Surface Impoundment Bottom Ash Pond 1

AECOM ("Consultant") has been retained by Basin Electric Power Cooperative to certify whether the assessment of corrective measures presented herein for the Laramie River Station Bottom Ash Pond 1 coal combustion residuals (CCR) surface impoundment meets the requirements of Chapter 40 of the Code of Federal Regulations (CFR) § 257.96 and 257.97.

### LIMITATIONS

The signature of Consultant's authorized representative on this document represents that to the best of Consultant's knowledge, information, and belief in the exercise of its professional judgment, it is Consultant's professional opinion that the aforementioned information is accurate as of the date of such signature. Any opinion or decisions by Consultant are made on the basis of Consultant's experience, qualifications, and professional judgment and are not to be construed as warranties or guaranties. In addition, opinions relating to environmental, geologic, and geotechnical conditions or other estimates are based on available data, and actual conditions may vary from those encountered at the times and locations where data are obtained, despite the use of due care.

### CERTIFICATION

I, Parick Clem, being a Registered Professional Engineer in the State of Wyoming, certify to the best of my knowledge, information, and belief, that the Assessment of Corrective Measures presented by Basin Electric for the CCR unit that is the subject of this certification meets the requirements of 40 CFR § 257.96 and 257.97, and that this certification is true and correct and has been prepared in accordance with generally accepted good engineering practices.
